

Drupal 8 FlexSlider Slideshow

With Links On Shared Web Host

2020

Procedure (High Level)

1. Create a new Drupal 8 site
2. Manually Create the libraries folder – D8 doesn't come with one
3. Install [themes](#) + [JS library](#) + contrib. modules
4. Switch default theme to [Likable](#)
5. Disable Default Theme's slideshow
6. Enable contrib. modules – Extend the Admin Toolbar and Extend
7. Enable Core Media & Media Library modules
8. Install and enable Flexsilder + required contrib. modules
9. Verify FlexSlider library on the D8 Status report page
10. Create “Basic pages” About, Biography – add URL alias(s) to them
11. Create a “My slide” content type
12. Create nodes of “My slide” content types
13. Create My slideshow view – Block view
14. Add the view to the Highlighted block & configure to show on the front page only – use the <front> tag

Warning about Flexslider JS Library

- **Drupal 8 does not have a libraries folder**
- We have to create the libraries folder first
- On a Shared WebHost, use the File Manager
- The libraries folder is named “libraries”
 - all lower case folder name
- Only install (upload) the FlexSlider JS library from the WooCommerce GitHub site
 - <https://github.com/woocommerce/FlexSlider>
- Pantheon users – you have to extract the FlexSlider JS library compressed file and upload the folders and files using FileZilla. Pantheon prevents us from extracting compressed files on FileZilla

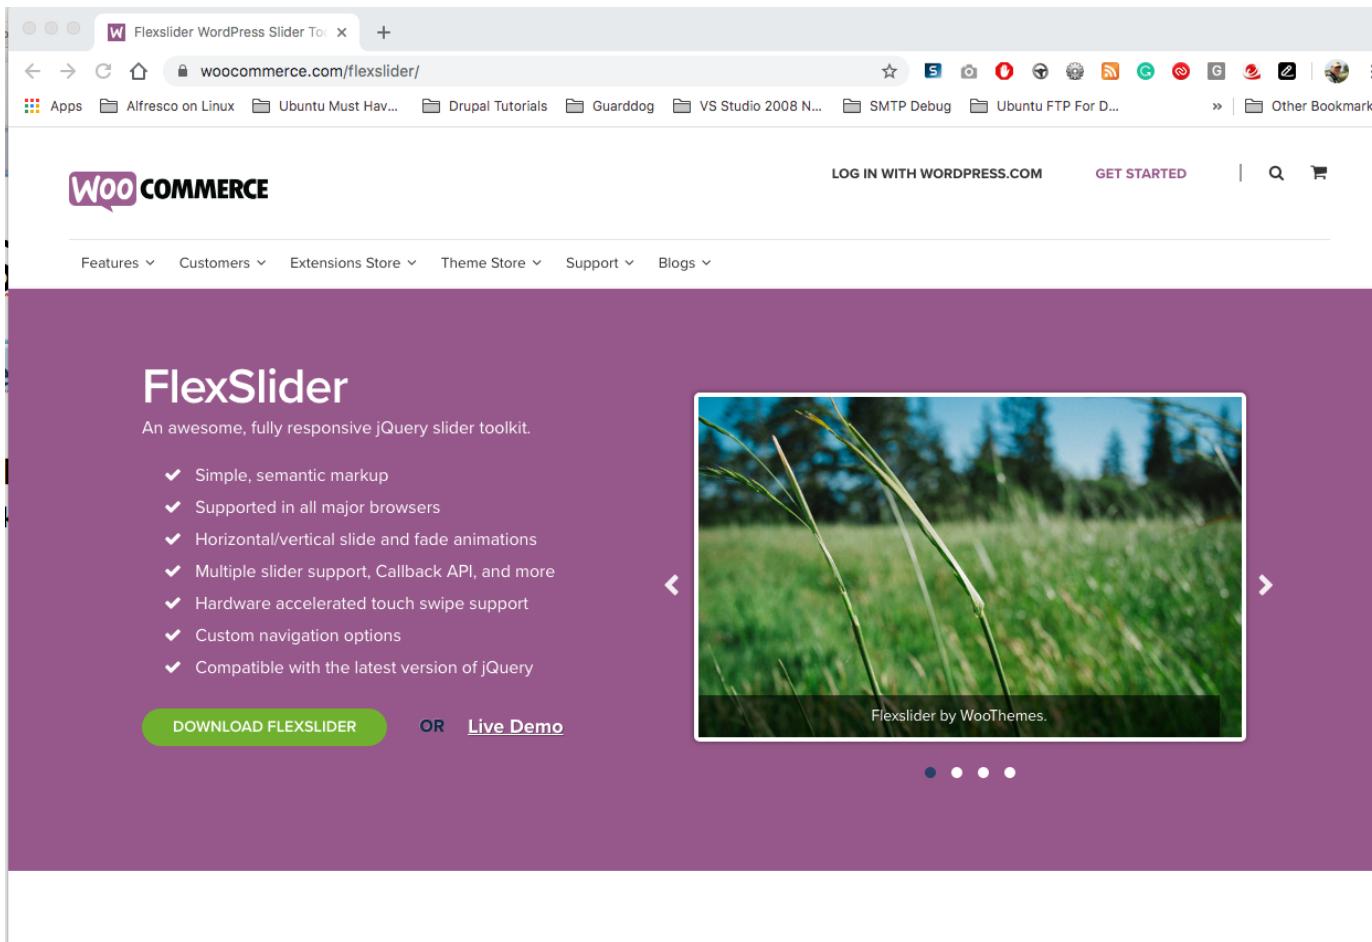

Attention Pantheon users

- Pantheon prevents us from extracting uploaded compressed files on FileZilla.
 - We used to be able to upload a PHP script to do this
- To get around this inconvenience:
 - Download the FlexSlider JS file to your local computer
 - Extract the FlexSlider JS library compressed file on your local computers
 - Create a libraries folder on the D8 File System
 - Use FileZilla to upload the extracted FlexSlider folders and to the libraries folder

Be careful installing JS Libraries

Do not download the Flexslider JS library from this site

JS Libraries: <https://woocommerce.com/flexslider/>

Get Flexslider JS Library from GitHub

<https://github.com/woocommerce/FlexSlider>

The screenshot shows the GitHub repository page for the 'FlexSlider' project under the 'woocommerce' organization. The page includes a navigation bar with links to Why GitHub?, Enterprise, Explore, Marketplace, Pricing, a search bar, and sign-in/sign-up buttons. Below the header, there's a summary card with the repository name, a 'Code' tab (which is selected), issue count (262), pull request count (53), project count (3), wiki, security, and insights links. A prominent 'Join GitHub today' call-to-action box is displayed, encouraging users to sign up. Below the box, a link to the project's website is provided: <http://www.woocommerce.com/flexslider/>. The main content area shows a timeline of recent commits, with the latest commit being a merge pull request from 'jeffikus' on March 7, 2019. Other visible commits include updates to bower_components/jquery, css, and demo files. At the bottom, there are buttons for finding files and cloning or downloading the repository.

An awesome, fully responsive jQuery slider plugin <http://www.woocommerce.com/flexslider/>

Recommended Testing Theme

Likeable: <https://www.drupal.org/project/likable>

The screenshot shows a browser window with several tabs open at the top, including "Flexslider WordPress Slider", "Linked Field | Drupal.org", "Flex Slider | Drupal.org", "GitHub - woocommerce/Fle", and "Likable Clean Theme | Drupal.org". The main content area is the Drupal.org homepage, featuring the Drupal logo and navigation links for "Why Drupal?", "Build", "Solutions", "Services", "Community", "Resources", "Give", and "Try Drupal". Below this is a large blue header for "Download & Extend" with tabs for "Drupal Core", "Distributions", "Modules", and "Themes", where "Themes" is currently selected. The main content area displays the "Likable Clean Theme" project page. It includes a "View" button, "Version control", and "Automated testing" links. A note says it was last updated on 30 December 2018. The theme's description states it is a clean, responsive, multi-column Drupal theme with many block regions and a slideshow ready for use. A preview image shows a modern living room interior. A rating section shows 1 star. A sidebar on the right lists "Maintainers for Likable Clean Theme".

Linked Field

View Version control Automated testing

By yannickoo on 26 July 2012, updated 5 October 2017

Linked Field allows you to link fields in the field formatter settings. E.g. you have a content type **teaser** with an **image** and a **link** field and you want to link the image to the entered link.

You can either select a field for used for destination or simple support) + HTML attributes for the generated link as well.

Drupal 8

Optional dependencies

- Token – Gives you access to the token browser
- YAML Editor – Loads an Ace editor which makes YAML editing easier

we have to use Linked Field **8.x-1.1**

- To get the older version
- Open a web browser, navigate to the Linked Field Project page
- Scroll to the bottom of the page

Scroll to the bottom of the page

The screenshot shows a web browser displaying the Drupal.org project page for 'Linked Field'. The URL in the address bar is `drupal.org/project/linked_field`. The page has a blue header with the Drupal logo and navigation links for Why Drupal?, Build, Solutions, Services, Community, Resources, Give, and Try Drupal. Below the header, there's a large dark blue banner with the word 'Drupal™' in white. To the left, there's a 'Download & Extend' section with tabs for Drupal Core, Distributions, Modules (which is selected), and Themes. The main content area features a heading 'Linked Field' with sub-links for View, Version control, and Automated testing. A text block explains that Linked Field allows linking fields in the field formatter settings. Below this, another text block says you can either select a field or enter a token. At the bottom, there's a section for 'Drupal 8' and 'Optional dependencies' with links for Token and YAML Editor. On the right side, there's a callout 'SCROLL DOWN THE Project Page' with a large purple arrow pointing downwards. Other sidebar elements include a star icon with '31' reviews, a 'Maintainers' section, and an 'Issues for Lin' section.

Make sure you enable the 8.x-1.1 version of the Linked Field Module

The screenshot shows the Drupal administration interface for module updates. At the top, there are three buttons: 'List' (gray), 'Update' (blue), and 'Uninstall' (gray). Below the buttons, the breadcrumb navigation shows 'Home » Administration'. A yellow warning box contains the message: 'There are updates available for one or more of your modules or themes. To ensure the proper functioning of your site, you should update as soon as possible. See the [available updates](#) page for more information and to install your missing updates.' Below the warning, text encourages downloading contributed modules and regularly reviewing available updates. A blue button labeled '+ Install new module' is visible. On the left, a sidebar lists categories: 'All modules' (55 of 90), 'Recently enabled' (1), 'Newly available' (0), and 'Other' (1). The main content area shows a search bar with 'Linked' typed in. Under the search results, there are checkboxes for 'Enabled', 'Disabled', and 'Unavailable'. The 'Linked Field' module is listed with its details: 'Machine name: linked_field' and 'Version: 8.x-1.1'. Below the module details are 'Permissions' and 'Configure' links. At the bottom of the module card is an 'Install' button.

URL aliases for our two Basic pages

The screenshot shows the Drupal 8 Configuration page for URL aliases. The top navigation bar includes links for Back to site, Manage, Shortcuts, and user mxchase. Below the navigation are links for Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help.

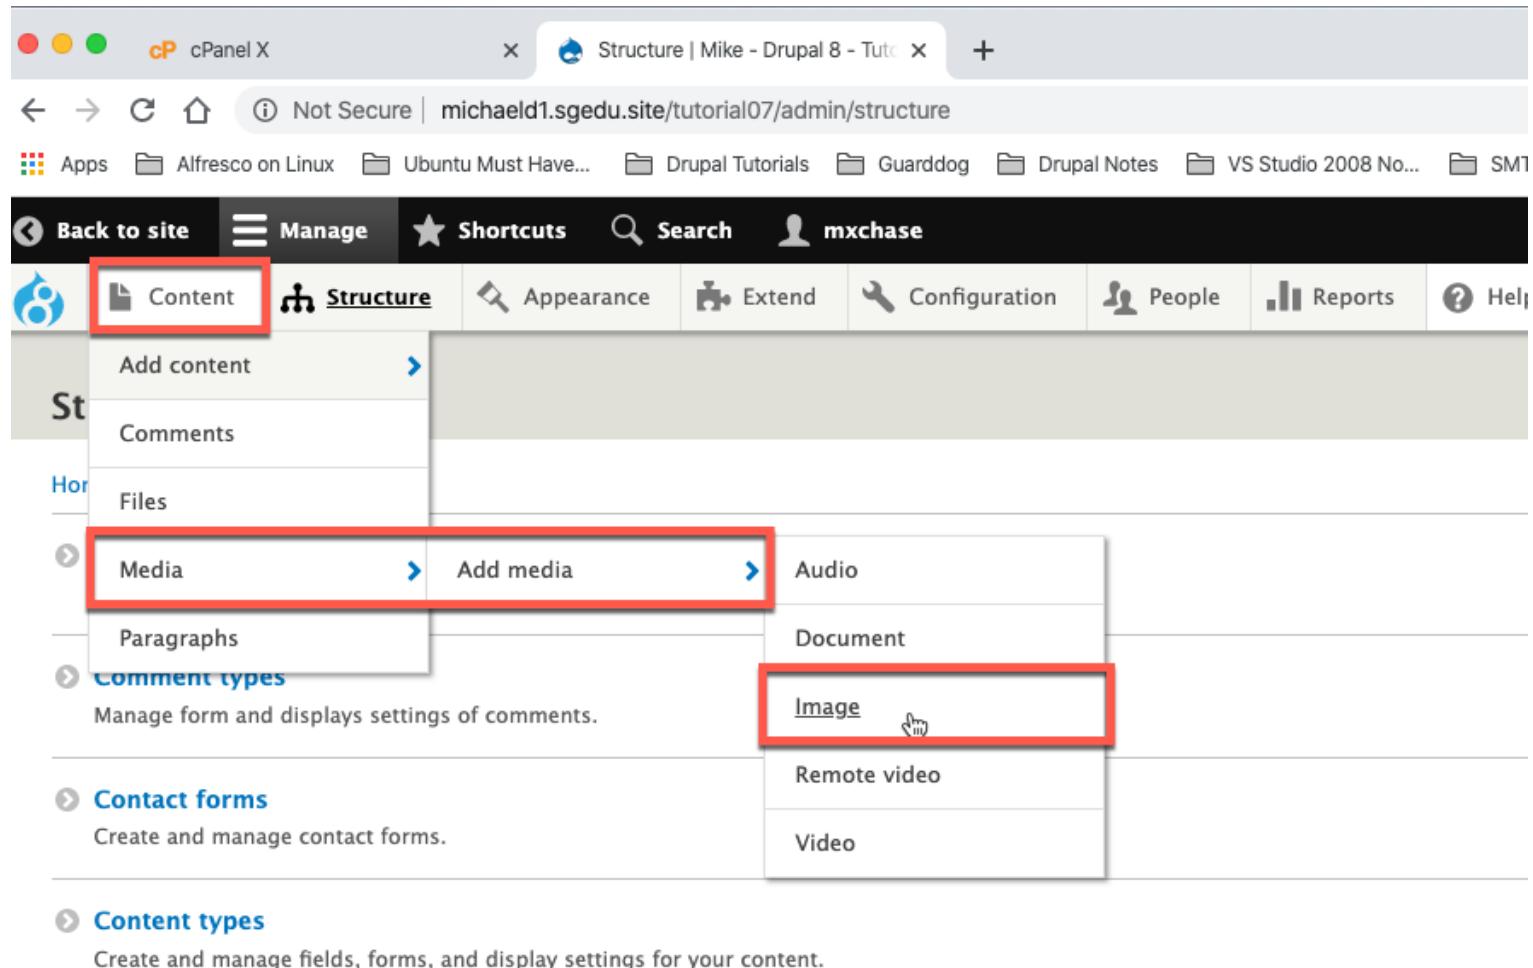

The main title is "URL aliases" with a star icon. The breadcrumb trail shows Home > Administration > Configuration > Search and metadata. A descriptive text explains what an alias is: "An alias defines a different name for an existing URL path – for example, the alias 'about' for the URL path 'node/1'. A URL path can have multiple aliases." A blue button labeled "+ Add alias" is visible.

A section titled "▼ FILTER ALIASES" contains a search input field and a "Filter" button.

ALIAS	SYSTEM	LANGUAGE	OPERATIONS
/about-us-page	/node/1	English	<button>Edit</button> <button>⋮</button>
/biography-page	/node/2	English	<button>Edit</button> <button>⋮</button>

Add Slide Images to the Media Library

Admin toolbar > Content > Media > Add media > Image

Use File Chooser or drag and drop image on the Choose File button

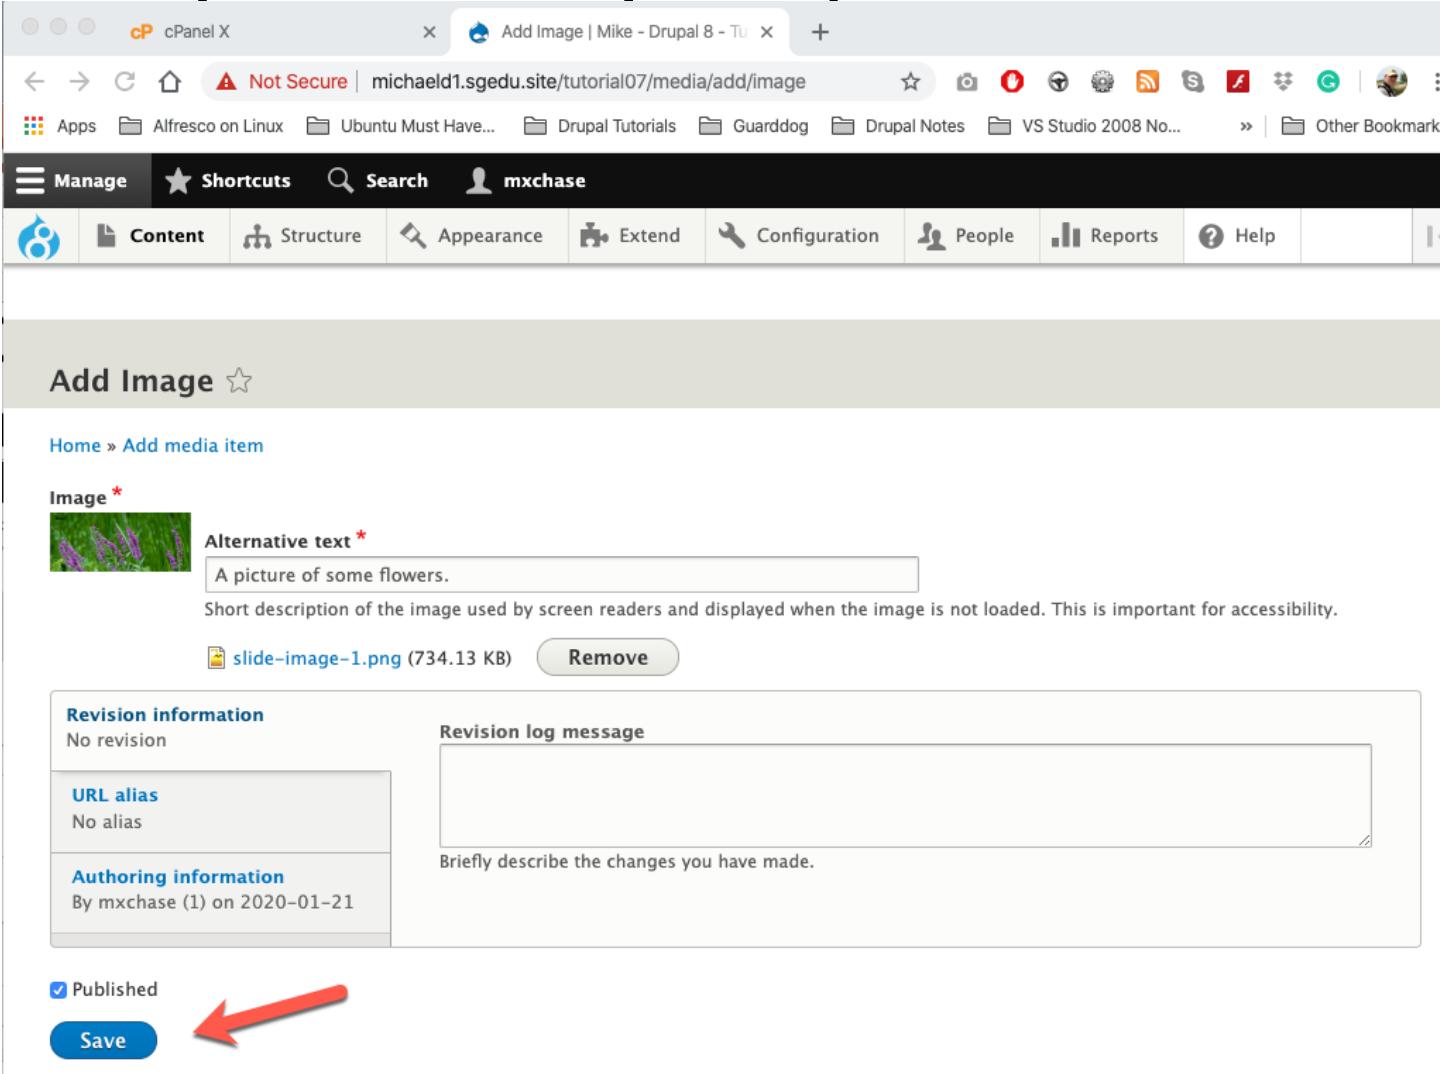

The screenshot shows a user interface for adding a media item. At the top, there is a navigation bar with links for Manage, Shortcuts, Search, mxchase, Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help. Below the navigation bar, the main content area has a title 'Add Image' with a star icon.

The main form starts with a breadcrumb trail: Home » Add media item. The first field is labeled 'Image *' with a red arrow pointing to the 'Choose File' button. The input field contains the text 'No file chosen'. Below this field, there are instructions: 'One file only.', '128 MB limit.', and 'Allowed types: png gif jpg jpeg.'.

On the left side, there are three sections: 'Revision information' (No revision), 'URL alias' (No alias), and 'Authoring information' (By mxchase (1) on 2020-01-21). On the right side, there is a 'Revision log message' section with a large text area and the instruction 'Briefly describe the changes you have made.'

At the bottom left, there is a checked checkbox for 'Published'. At the bottom center, there is a blue 'Save' button.

Add slide image, Alternative test (ending in period + space) and Save

The screenshot shows the 'Add Image' page in a Drupal 8 environment. At the top, the browser title is 'Add Image | Mike - Drupal 8 - Tu'. The page header includes 'Manage', 'Shortcuts', 'Search', and user 'mxchase'. Below the header, the main content area has a title 'Add Image' with a star icon. The 'Image' field contains a thumbnail of purple flowers. The 'Alternative text' field contains the text 'A picture of some flowers.' The 'Revision information' section shows 'No revision' and 'URL alias' with 'No alias'. The 'Authoring information' section shows 'By mxchase (1) on 2020-01-21'. The 'Revision log message' field is empty. A red arrow points to the 'Save' button at the bottom left.

Create a new content type named “My slide”

- This content type will have the default fields of all content types, plus two additional fields
 - (1) named “picture” – which is the slide picture
 - (2) named “link” – which is an optional link so the picture can act as a link
- The field “picture” will be of type Media, so we can select slide images from the Media Library (just like we do on WordPress”)

Create a ‘My slide’ content type structure

The screenshot shows the Drupe administration interface. At the top, there is a navigation bar with the following items: Back to site, Manage, Shortcuts, mxchase (user profile), Content, Structure (highlighted with a red circle containing the number 1), Appearance, Extend, Configuration, People, Reports, Help, and a search bar.

+Add content type

The screenshot shows the Drupal 8 administration interface for content types. The top navigation bar includes links for Apps, Alfresco on Linux, Ubuntu Must Have..., Drupal Tutorials, Guarddog, VS Studio 2008 N..., SMTP Debug, and Other Bookmarks. The main menu items are Back to site, Manage, Shortcuts, and mxchase. The current page is 'Content types'.

The 'Content types' page displays two entries:

NAME	DESCRIPTION	OPERATIONS
Article	Use <i>articles</i> for time-sensitive content like news, press releases or blog posts.	Manage fields ▾
Basic page	Use <i>basic pages</i> for your static content, such as an 'About us' page.	Manage fields ▾

A prominent blue button at the top left says '+ Add content type' with a red badge containing the number '3' indicates there are three pending additions.

'My slide' – title & description + Set Publishing options to Published

The screenshot shows the 'Add content type' page in a CMS. The top navigation bar includes 'Back to site', 'Manage', 'Shortcuts', 'Search', and a user profile 'mxchase'. Below the navigation are links for 'Content', 'Structure', 'Appearance', 'Extend', 'Configuration', 'People', 'Reports', and 'Help'. The main title is 'Add content type' with a star icon.

The breadcrumb navigation shows: Home » Administration » Structure » Content types.

The content area starts with a note: 'Individual content types can have different fields, behaviors, and permissions assigned to them.'

Name *: 'My slide' (highlighted with a red circle labeled 1). A tooltip says 'Machine name: my_slide [Edit]'. A note below states: 'The human-readable name of this content type. This text will be displayed as part of the list on the Add content page. This name must be unique.'

Description: 'a slide for a flex slider slider slideshow' (highlighted with a red circle labeled 2). A note below says: 'This text will be displayed on the Add new content page.'

Submission form settings: 'Title' field.

Publishing options: 'Published' checkbox (highlighted with a red circle labeled 3).

Display settings: 'Display author and date information'.

Menu settings: None.

Default options (checkboxes):

- Published
- Promoted to front page
- Sticky at top of lists
- Create new revision

A note: 'Users with the Administer content permission will be able to override these options.'

Add the first field picture

The screenshot shows the Drupal 'Manage fields' interface. At the top, there's a navigation bar with links like 'Back to site', 'Manage', 'Shortcuts', 'Search', and user information ('mxchase'). Below the navigation is a toolbar with icons for Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help. The main title is 'Manage fields' with a star icon. Below the title are four tabs: 'Edit' (selected), 'Manage fields', 'Manage form display', and 'Manage display'. A breadcrumb trail shows the path: Home > Administration > Structure > Content types > My slide. A green success message box contains the text: '✓ The content type *My slide* has been added.' At the bottom left, there's a blue button labeled '+ Add field' with a red arrow pointing to it. The main table lists one field: 'Body' (Label), 'body' (Machine Name), 'Text (formatted, long, with summary)' (Field Type), and 'Edit' (Operations). The table has columns for LABEL, MACHINE NAME, FIELD TYPE, and OPERATIONS.

LABEL	MACHINE NAME	FIELD TYPE	OPERATIONS
Body	body	Text (formatted, long, with summary)	Edit ▾

Add new field: Media

Label: Picture

The screenshot shows the Drupal administration interface for adding a new field. The top navigation bar includes links for Back to site, Manage, Shortcuts, Search, and user mxchase. Below the navigation is a toolbar with icons for Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help.

The main content area has a title 'Add field ★'. The breadcrumb trail indicates the path: Home » Administration » Structure » Content types » My slide » Manage fields.

The 'Add a new field' section contains two dropdown menus: 'Media' (selected) and 'Select an existing field'. A red circle labeled '1' is positioned over the 'Media' dropdown. A red circle labeled '2' is positioned over the 'Label' input field, which contains the value 'Picture'. A red circle labeled '3' is positioned over the 'Save and continue' button.

Below the field configuration, a note states: 'Use *Media* reference fields for most files, images, audio, videos, and remote media. Use *File* or *Image* reference fields when creating your own media types, or for legacy files and images created before enabling the Media module. For more information, see the [Media help page](#)'.

View (Top)

The screenshot shows the Drupal 8 Views configuration interface. The title bar includes links for Back to site, Manage, Shortcuts, mxchase, Tour, and Edit. The main content area is titled "My d8 flexslider view (Content) ☆". The breadcrumb navigation shows Home > Administration > Structure > Views.

A success message in a green box states: "The view My d8 flexslider view has been saved."

The "Displays" section shows a single "Block" display. The "Edit view name/description" dropdown is set to "Block".

The "Display name: Block" field is populated with "Block". A "Duplicate Block" button is available.

The configuration fields are organized into several sections:

- TITLE**: Title: My d8 flexslider view
- FORMAT**: Format: FlexSlider | Settings. Show: Content | Full content (selected).
- FIELDS**: Content: Title (selected). Add button.
- FILTER CRITERIA**: Content: Published (= Yes). Content: Content type (= My slide). Add button.
- SORT CRITERIA**: Content: Title (asc). Add button.
- BLOCK SETTINGS**: Block name: None. Block category: Lists (Views). Allow settings: Items per page. Access: Permission | View published content.
- HEADER**: Add button.
- FOOTER**: Add button.
- NO RESULTS BEHAVIOR**: Add button.
- PAGER**: Use pager: Display all items | All items. More link: No. Link display: None.

At the bottom are "Save" and "Cancel" buttons.

Highlighted region looks good

The screenshot shows a Drupal administrative interface with a toolbar at the top containing links for Content, Structure, Appearance, Extend, Configuration, People, Reports, and Help. Below the toolbar, a blue header bar says "Exit block region demonstration". The main content area is divided into several regions:

- Header:** A yellow bar containing social media icons for Facebook, Google+, Twitter, LinkedIn, Pinterest, and RSS, along with a search bar.
- Primary menu:** A yellow bar.
- Highlighted:** A yellow bar with a red border and a purple arrow pointing to it from the left.
- Middle first widget:** A yellow bar.
- Middle second widget:** A yellow bar.
- Middle third widget:** A yellow bar.
- Page title:** A yellow bar.
- Breadcrumb:** A yellow bar.
- Left sidebar:** A yellow bar.
- Content:** A yellow bar.
- Right sidebar:** A yellow bar.
- Price table first widget:** A grey bar.
- Price table second widget:** A grey bar.
- Price table third widget:** A grey bar.
- Price table forth widget:** A grey bar.

Slideshow on Likeable theme

Screenshot of a Drupal 8 site using the Likeable theme, showing a slideshow feature.

The top navigation bar includes:

- Manage
- Shortcuts
- Search
- mxchase
- Edit

The main header features the "Likeable" logo and the text "Mike - Drupal 8 - Tutorial 7 drupal theme".

The page menu includes:

- Home
- BP Test 2
- BP Test 3
- BP Test 1
- About me
- FAQ
- Contact Us
- Test Page X1
- BP XTest 3

A slide titled "Slide 1" is displayed, showing a close-up photograph of a bee pollinating a purple flower. The word "Contact" is visible in the top left corner of the slide image.

Home Consulting Services ▾ About ▾ Resources ▾ Contact Us

The image shows an aerial photograph of the New York City skyline, specifically the Manhattan area. Two specific areas are highlighted with purple circles: one on the left side of the image and another on the right side. These circles appear to be highlighting artifacts or noise in the image, possibly from a low-quality source or a compressed file. The left circle is located near the water, and the right circle is located further out towards the right edge of the frame.

Search

WELCOME TO CHAKRA ADVISORS

configuration changes to the FlexSlider

1. Navigate to the FlexSlider Configuration Page

- ① Hover over Configuration in the menu toolbar
- ② Hover over Media in the dropdown
- ③ Select FlexSlider

Configuration > Media > FlexSlider

The screenshot shows the Drupal administrative interface. The top navigation bar includes links for Back to site, Manage, Shortcuts, Search, and Go to. The main menu on the left lists Content, Structure, Appearance, Extend, Configuration (highlighted with a red circle labeled 1), GDPR, People, Reports, and Help. The Configuration menu has a sub-menu with items: People, System, Content authoring, User interface, Development, Media (highlighted with a red circle labeled 2), Message, Search and metadata, Regional and language, GDPR, Web services, and Workflow. The Media item in the sub-menu has a sub-item: File system. The sub-menu for Media also includes Image styles, Media settings, Responsive image styles, Image toolkit, and FlexSlider (highlighted with a red circle labeled 3). The central content area displays the 'FlexSlider' configuration page, showing tabs for List and Advanced settings, and a table with one row for 'Default'.

Edit the FlexSlider

The screenshot shows the Drupal 8 administration interface. The top navigation bar includes links for Back to site, Manage, Shortcuts, Search, mchase, Go to, Content, Structure, Appearance, Extend, Configuration, GDPR, People, Reports, and Help. The main title is "FlexSlider" with a star icon. Below the title are two tabs: "List" (selected) and "Advanced settings". The breadcrumb navigation shows Home » Administration » Configuration » Media. A text block explains that an option set defines how a flexslider image gallery looks and behaves on your site, with a link to the official FlexSlider documentation. A blue button labeled "+ Add optionset" is visible. A table lists one option set: "Default" (Machine Name: default). The table has columns for NAME, MACHINE NAME, and OPERATIONS. The OPERATIONS column contains a red circular badge with the number "4", an "Edit" button, and a dropdown arrow. The bottom right corner of the screen shows the number "94".

NAME	MACHINE NAME	OPERATIONS

Flush all Cache

The screenshot shows a Drupal administrative interface. At the top, there's a toolbar with icons for back, forward, refresh, and home, followed by a status message "Not Secure | ser-394.service-cdm-dep.com/chakradvisor8dev/". Below the toolbar is a navigation bar with links for "Apps", "Alfresco on Linux", "Ubuntu Must Hav...", "Drupal Tutorials", "Guarddog", "VS Studio 2008 N...", and a "File" link. The main navigation bar has tabs for "Manage", "Shortcuts", "Search", and user information "mchase". The "Manage" tab is active.

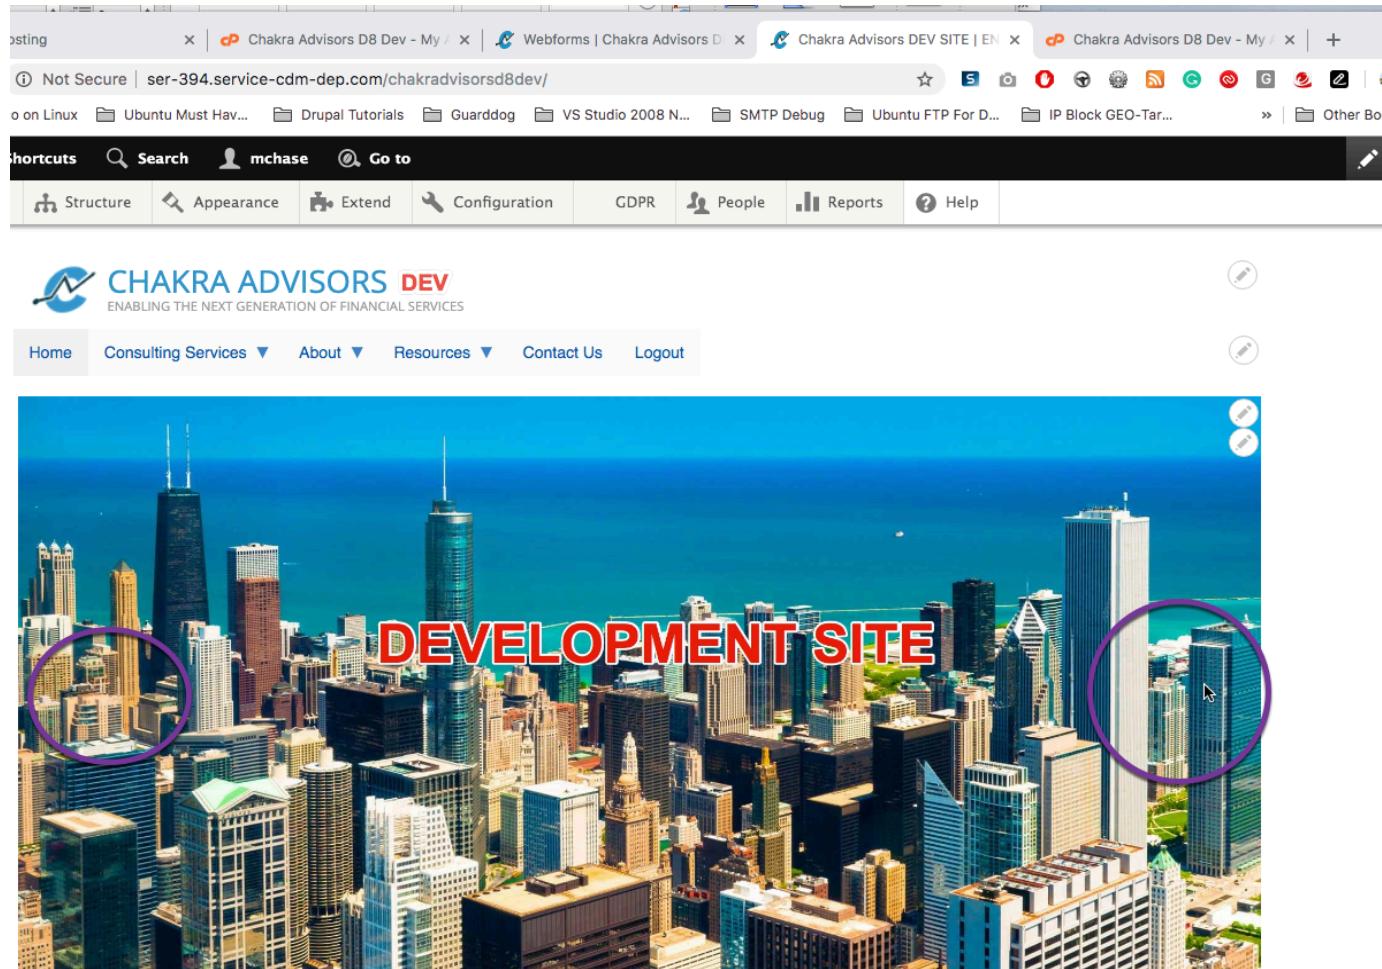

The left sidebar contains links for "Index", "Flush all caches" (which is highlighted with a red circle containing the number 2), "Run cron", "Run updates", and "Logout".

A dropdown menu is open under the "Flush all caches" link, listing the following options:

- Flush CSS and Javascript
- Flush plugins cache
- Flush render cache
- Flush routing and links cache
- Flush static cache
- Flush twig cache
- Flush views cache

The right side of the screen shows a preview of a website titled "ISORS DEV" with the subtitle "ON OF FINANCIAL SERVICES". The page includes a navigation bar with "About", "Resources", "Contact Us", and "Logout" links. Below the navigation is a large image of a city skyline, likely New York City, with the word "DEVELOPME" overlaid in large red letters.

Test the site – arrows should be gone

Thanks for watching

The End
